NO HIDDEN COSTS
NO LIMITATIONS

Our fees are based on the number of acceptances you have each month. This means your success is our success.

We're in this together at Our Honor Society.

DESIGNED FOR HONOR SOCIETIES

Our Honor Society was designed specifically for honor societies and their needs. Why use a system that doesn't understand you? Use one that cares.

DESIGNED BY HONOR SOCIETIES

Our Honor Society developers have been supporting honor societies for over a decade using your feedback. That's why we called it Our Honor Society. We built it together.

HONOR SOCIETY

Affordable
Customizable
Supported

Member management platform designed for honor societies by honor societies.

OUR HONOR SOCIETY

Custom Look

Customizable Options

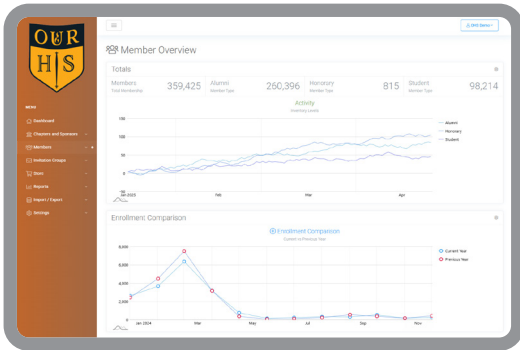

Personalize

Your membership portal can be personalized with your society's unique branding, including logo and colors, allowing members to feel confident and connected.

Connect

Branded email and messaging templates with dynamic data capabilities allow you to personalize recipients' names, institutions and more. Templates are assignable to specific messaging topics, ensuring consistent visual communication.

Standardize

Templates ensure that text and images required by the national office are included in all messaging.

Prioritize Features

Set defaults on the features your society wants to use, then customize how individual chapters use them.

Customize Access

Control individual chapters' ability to edit profiles, message members and request supplies, and determine whether they can send invitations independently or through a review process (queuing).

Free Training

When moving to a new system or onboarding a new group of sponsors, we have dedicated training staff to help you. Just contact us and we'll schedule a training session tailored to your schedule and needs.

Free Support

When you need help, it's nice to know someone has your back. Whether it's a simple question or help fixing a data issue, we'll be there to help you get back on track.

Free Advanced Reporting

Societies sometimes have advanced reporting needs that aren't always covered by normal reporting. If our system doesn't have an easy way for you to get the data you need, we'll help you with that.

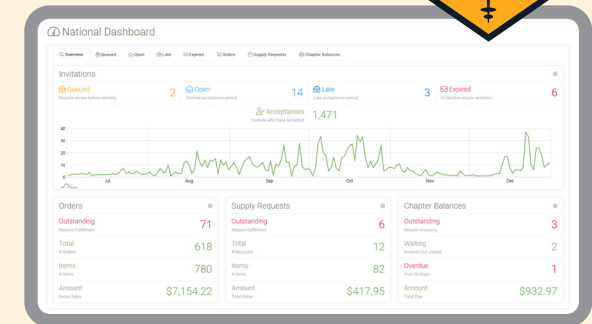

Cloud Hosted

Your data is backed up hourly using Amazon Web Services, and our servers automatically adapt to spikes in demand. Feel safe and secure in the knowledge you are protected.

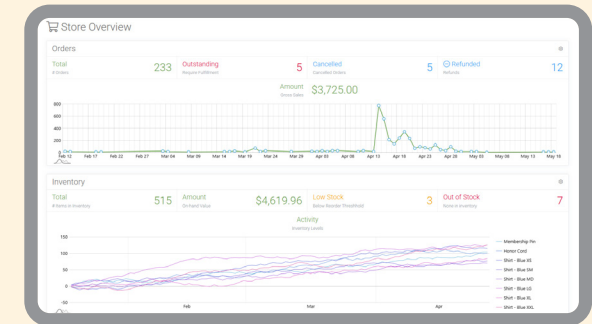

Automation Support

Societies that use third-party fulfillment services or need a report sent to an email address on a scheduled basis are becoming more common. We'll work with you to create and manage those services.
